

Welcome to the Airbus Basket-Hand-Volley Society

Publié le mardi 14 août 2012 10:14

This Society currently proposes the three activities at least once a week, as well as other social events during the athletic meets of the French national team or other significant occasions in each discipline.

- **The Basketball section** offers a weekly training session and the possibility for interested employees to take part in the FSGT tournament (at 'varsity' level). In the spring, the team also participates in regional cups.
- **The Handball section** also offers a weekly training session and participation in the FFHB tournament (at recreational level), as well as summer activities during the Sandball Cup, which takes place at the beach.
- **The Volleyball section** offers weekly leisure sessions and the possibility for interested employees to take part in the FSGT competition (at 'varsity' level). During the year, the team also participates in regional tournaments and summer Beach Volley activities (in the Toulouse region or on regional beaches).

Please note that none of these sections is supervised by a coach, and that the activities are coordinated by participating players in a casual atmosphere of sportsmanship. We're looking forward to seeing you on our team !
